Our Story

Where Ancient Symbols Meet Modern Craft

Every piece in the A&K collection carries meaning. The evil eye wards off negativity — a tradition rooted across cultures from the Mediterranean to the Middle East. The hamsa brings protection and blessings. The yin-yang celebrates balance. The hummingbird represents joy, lightness, and the beauty of the present moment.

Founded by Karina Belsky in San Diego, A&K Jewelry Collection has spent three decades perfecting the art of 18K gold-plated jewelry. Each piece is hand-finished in our California workshop, using ethically sourced materials and a rigorous quality process. Our jewelry is hypoallergenic, resists tarnishing, and is designed to be lived in — not just displayed.

We invite retailers who share our commitment to quality and cultural storytelling to join our wholesale program. Every order ships with our 14-day quality guarantee and dedicated account support.
